Flutter, Angular, Ruby, and AR

#### OTHER SKILLS As a Designer

Grphic Design, User Interface Design, User Experience Desgin, Video Editing

github repo: github.com/li000592/Currency-Converter

Make your custom currency list, then type in one

currency, and the other currencies will change at

#### **COOPERATION PROJECT**

#### **React Native**

#### Skills Guild (developing)

private (Introduction, Design prototype)

Our project is Finalist (top 5) in 2021 RE/ACTION Showcase(<u>link</u>). I am the main font-end developer. I build the initial project structure in React Navigation and Redux. Also, I am the main visual designer. All the prototype and poster are made by me.

## Yelp

github repo: github.com/li000592/Yelp-rn

Use Yelp API to display list view and map view of restaurants near you, and have search function.

## PERSONAL PROJECT

## React

## JS Frameworks App

github repo: github.com/li000592/JS-Frameworks

## **Javascript**

## **Weather App**

github repo: github.com/li000592/Weather-Web-App

# Giftr

github repo: github.com/li000592/giftr-PWA

## Website

# **Bootstrap SASS Website**

github repo: github.com/li000592/Bootstrap-SASS-Website

#### Cordova **Playr**

React

**Currency Converter** 

the same time.

github repo: https://github.com/li000592/playr

## Tundra

github repo: github.com/li000592/tundra

## Reviewr

github repo: github.com/li000592/reviewr

## **Movie Searcher**

github repo: github.com/li000592/cordova-movie

## SELF-STUDY ONLINE

## React

## **Epic React**

Use Yelp API

https://epicreact.dev/learn

# **Testing JavaScript**

https://testingjavascript.com

## React

## **JavaScript Algorithms and Data Structures Masterclass**
